

tSML - Cover for Module 19"/0.5U angled

tSML - tde Semi Modular Link

tSML is a modular developed cabling system, which consists of two core components: module and trunk cable. The system components, preterminated with connectors and tested ex works, facilitate very fast installation of both twisted pair and fiber-optic cables. Ready-made trunk cables, providing a high number of pairs or fibers, can simply be plugged together using patch panels. Up to 96x LC duplex and/or 48 x RJ45 of haven can be accommodated in such a way on 1U. At the heart of the System are MPO/MTP[®] and Telco connectors, with which 12 optical fibers or 24 copper pairs can be connected simultaneously. Fiber-optic and twisted pair modules can be combined on 1U within a panel without difficulty.

For sealing of the angled Module 19"/0.5U.

tSML - Cover for Module 19"/0.5U angled

Technical Data

Material	stainless steel
Dimensions	depth: 10.5 cm (outside) / 20.5 cm (centered)
Mounting	through enclosed screws
Identification	laser-engraved at the front
	QS-Managementsystem ISO 9001, ISO 14001 and TL 9000

Product variants & accessories

Art.-No.	Description
TSML-MS-19/0.5HE-CO	tSML - Cover for Module 19"/0.5U angled
TSML-MS-19/0.5HE-KB	tSML - Module 19"/0.5U angled blank w/o cover f. 4x FO partial front panels or 4x RJ45 DC 6fold
