

tde - Secure Patch cord LC/LC 9/125 μ Duplex Round Cable LSOH OS2 (xxx meter)

tde - Secure Patchcords with locking feature

The feature of the SLC plug is simple: If one puts the plug into a standard LC adapter, this engages there firmly and is surely locked. The disconnecting is only possible with the use of a special extraction tool. Then no danger exists that unauthorized plugs are unlocked. Eight different key configurations are available as standard options.
