## tBL® - TP Installation Cable both ends 1x termination block Cat.6<sub>A</sub> UC900 SS23 LSHF

# tBL® - tde Basic Link (TP)

tBL® tde Basic Link (TP) is a complete system solution for structured cabling in Cat6A for transfer rates of up to 10GbE in real time. The tBL® - cabling link corresponds to a permanent link in accordance with ISO / IEC 11801 (EN 50173). The RJ45 modules are available in the form factors Keystone (KS) and Data Center (DC). The compact design of the 6fold RJ45 DC module allows a high packing density of up to 48 RJ45 ports on 1U. The RJ45 module is connected to the tBL® - cable termination block by simply plugging. The slim cable termination block can be easily assembled on the cable by using the tBL® - crimp tool and is suitable for preterminated cables. The modular design of individual RJ45 modules are interchangeable at any time without termination. A cost effective alternative product is the RJ45 keystone module without cable termination block in the tool-less design.

The system solution is complemented by an extensive portfolio of carrier systems. These include design-capable data outlets, floor box frames, Consolidation points, DIN rail modules and patch panels in 1/2 and 1U.

tde® trans data elektronik GmbH

tBL® - TP Installation Cable both ends 1x termination block Cat.6<sub>A</sub> UC900 SS23 LSHF

# **Technical Data**

| XXXX | Length in cm |
|------|--------------|
|      | Length in on |

### **TP Termination Block**

| Construction                   | plastic with insulation displacement connection  |
|--------------------------------|--|
| Gold plating termination block | 30 μ"  |
| Color                          | transparent yellow   |
| Application                    | Installation cable with solid wire, AWG 22 to AWG 24 and flex.   |
|                                | Plug bears small flag-like installation guide with color codes for pin-out according to EIA/TIA 568 A and B. |

### **TP Cable**

#### Construction

| Conductor    | bare copper wire, Ø 0.56 mm (AWG 23/1) |  |
|--------------|--|--|
| Insulation   | foamskin PE, Ø 1.38 mm                 |  |
| Twisting     | 2 cores to the pair                    |  |
| Pair screen  | Al-laminated plastic foil              |  |
| Cable lay up | 4 pairs (PiMF) to the core             |  |
| Sreen        | copper braid, tinned                   |  |
| Sheath       | LSHF or LSHF-FR orange RAL 2003        |  |

## **Mechanical properties**

| Minimum bending radius | Without load        | ≥ 30 mm        |
|------------------------|---------------------|----------------|
|                        | With load           | ≥ 60 mm        |
| Temperature range      | During operation    | -20°C to +60°C |
|                        | During installation | 0°C to +50°C   |

## Electrical properties at 20°C $\pm$ 5°C

| Loop resistance                 |                                       | $\leq 154~\Omega/km$                  |
|---------------------------------|---------------------------------------|---------------------------------------|
| Resistance unbalance            |                                       | ≤ 2%                                  |
| Insulation resistance           | (500 V)                               | $\geq 5000~\text{M}\Omega^*\text{km}$ |
| Mutual capacitance              | at 800 Hz                             | Nom. 43 nF/km                         |
| Capacitance unbalance           | (pair/ground)                         | ≤ 1500 pF/km                          |
| Characteristic impedance        | 100 MHz                               | $(100 \pm 5) \Omega$                  |
| Nominal velocity of propagation |                                       | ca. 79%                               |
| Propagation delay               |                                       | ≤ 425 ns/100m                         |
| Delay skew                      |                                       | ≤ 9 ns/100m                           |
| Test voltage                    | (DC, 1 min) core/core and core/screen | 1000 V                                |
| Transfer impedance              | at 1 MHz                              | 5 mΩ/m                                |
|                                 | at 10 MHz                             | 5 mΩ/m                                |
