

tML[®] - TP Patch Cord Management ring metal, 110mm

tML[®] - tde Modular Link

tML[®] is a patented, modular cabling system consisting of the three key components module, trunk cable and rack mount enclosure. The system components are 100 percent manufactured, pre-assembled and tested in Germany. They enable plug-and-play installation on site - especially in data centres, but also in industrial environments - within the shortest possible time. The system is characterized by highest packing density and highest flexibility during migration to higher transmission rates. Fibre optic and TP modules can be combined in one rack mount enclosure. 96x fibre optics LC Duplex or 96x MPO connectors can be used modularly on a 19-inch height unit. Thanks to its patented polarity and dark fibre modules, the tML system offers the simplest migration options to 100G and more.

tML[®] - TP Patch Cord Management 19" Panel for the regulatory horizontal cable run of patch cords.

tML[®] - TP Patch Cord Management ring metal, 110mm

Technical Data

Material	Metal ring 110mm
Cable entry	Patch cords are from the top inserted
	QS-Managementsystem ISO 9001, ISO 14001 and TL 9000

Product variants & accessories

Art.-No.	Description
TML-RP-BGL-100-K	tML [®] - FO Patch Cord Management ring plastic, 100mm, black
TML-RP-BGL-110	tML [®] - TP Patch Cord Management ring metal, 110mm
TML-RP-BGL-56-K	tML [®] - FO Patch Cord Management ring plastic, 56mm, black
TML-RP-VERT	tML [®] - vertical Patch Cord Management 90° angled without rings, stainless steel
