

MINI 10/100BASETX TO 100BASEFX SWITCH, SC MM 2KM W/UK

Lantronix / Transition Networks

10/100Base-TX (RJ-45) [100 m/328 ft.]

to 100Base-FX 1300nm multimode (SC)

[2 km/1.2 mi.] Link Budget: 11.0 dB

Description

The M/E-PSW Series is a Fast Ethernet stand-alone Mini media converter that provides cost effective, entry-level media conversion between 10/100Base-TX ports and 100Base-FX ports. With its fixed configuration, deployments are just plug-and-play, and with its small size, it is ideal for locations where space is limited. Operating at Layer 2, the data link layer, this converter not only converts copper to fiber, it also provides rate conversion allowing legacy 10Base-T copper devices to connect to 100Base-FX fiber.

Features

- Unit and Port LEDs allow for quick status information
- Auto-Negotiation
- Fixed Full-Duplex on fiber
- Auto-MDI/MDIX
- Automatic Link Restoration
- Far-End-Fault (FEF)
- Connect to legacy network equipment
- Eliminate Collision Domains
