

FO IBC™ Brand Cleaning Tool for MDC connectors

tde - FO Cleaning Tools for Connectors and Adapters

The performance of the individual fiber optic connector on the network is increasingly playing a very important role, since the transfer rates to rise steadily. The available attenuation budgets can be quickly exhausted. Therefore, it is always very important that not only very high-quality connectors are used with optimized end surfaces, but dirt is avoided on the connector surfaces. Very often, however, if improperly applied connector cleaning more dirt or even damage the connector. Only the tools listed below guarantee a reliable connector cleaning.

Features

- 525+ cleaning engagements per unit
- Anti-static system produces pristine endface and minimizes contaminant attraction
- Cleans cable assembly in hand as well as cables behind panel
- Non-fraying cloth design
- Simple push to clean action

Applications

- Cable assembly factories
- Field Installations: Cleaning cable assemblies
- Field Installations: Cleaning in-situ/behind the panel connectors
